

CHAL-0694

9 July 1959

MEMORANDUM FOR : Chief, Development Branch, DPD
ATTENTION :
SUBJECT : Contract No. PF-400 Granger Associates
Satisfactory Completion of Contract.

25X1

1. The subject contract was for the procurement of the design, development and fabrication of a Radar Repeater Jammer for installation in the U-2 aircraft. It also covered the furnishing of technical assistance to the Government during the installation and flight testing thereof.

2. Under the terms of the contract the above work was to be completed in March of 1959. It is my understanding that Contractor delivered a satisfactory unit and met the above schedule.

3. If the above assumption is correct, it is requested that a statement be furnished the undersigned to the effect that the Contractors performance under the contract was satisfactory from a technical standpoint and acceptance of the Radar Repeater Jammer has been made by your Branch.

4. In addition to the above, your attention is called to the fact that a Stanford S-441 Repeater Jammer was obtained from WADC at WPAFB, Ohio and furnished as GFP under the contract. I have been advised by the Auditor that this Unit was returned to Stanford University in lieu of WADC. I would appreciate your concurrence in this as being satisfactory to the DPD and WADC.
